

THE EMKA EMERGENCY HAMMER

An indispensable lifesaver

① Emergency hammer Basic

② Emergency hammer with hand protection

③ Emergency hammer with hand protection and belt cutter

Ⓐ Holder

Ⓑ Holder with and without theft protection (steel cable winding and unwinding)

Both holders can be sealed and have the same cut out

Different versions for any application

The development of the new EMKA emergency hammer emphasizes on a fresh design with a large and handy grip, a useful modularity and a safe function. The product complements the EMKA transport portfolio and is especially designed to be used in all vehicles on rail and road. The EMKA emergency hammer is available in three variations: ① Basic, ② with hand protection to minimize the risk of

injury, and ③ with a belt cutter at the end of the handle. The holder is available in two versions: Ⓐ Small version, Ⓑ with and without theft protection. On request, the emergency hammer is also available in two colours and in the customer's CI.

Regional and long-distance train

Tram

Public bus and coach

Truck

The lifesaver in need

They are a familiar sight in buses or trains. Emergency hammers are located ready to use and clearly visible right next to the windows. In case of an accident or emergency, they help to break the window glass to allow the release of the trapped person. The EMKA emergency hammer is made of fibre-glass-reinforced plastic and complies with the relevant fire protection standards. The hardened steel tip is suitable for

breaking tempered and laminated glass as well as insulating glass. The optional belt cutter is indispensable for the proper use in all vehicles with safety belts to cut blocked straps.
