

Ingenious Locking  
Technology

## Sales worldwide

The EMKA Group is the world leader for locking systems, hinges and gaskets, which are used in cabinets and control cabinets for electronics and electrical engineering. In the areas air conditioning technology and transport, EMKA is one of the leading manufacturers of locking technology.

With 2,100 employees we serve over 30,000 customers in 52 countries worldwide.

## In-House production

Currently, the overall range comprises more than 15,000 articles, which are developed, manufactured, refined and assembled at ten production sites in Germany, France, Great Britain, Spain, Bosnia-Herzegovina, Serbia, China and India.

## Modular program

The product program by EMKA has a consistently modular structure. No matter whether made of stainless steel, zinc, aluminium, plastic or rubber, the products meet national as well as international standards, e. g. resistance class RC2 and are available up to the IP rating IP 69K.

## Technology center

The centrepiece of the product development at EMKA is its own design department. Engineers and designers develop locking components and systems using the latest design software meeting the highest requirements.

Afterwards, they are tested in its own test laboratory for development.

## Locking systems for switch cabinets

The modular range of EMKA products offers a unique choice of different types of locking systems for the cabinet construction.

The high quality and product standards are guaranteed by an excellent manufacturing know-how and by the certified process control according to ISO 9001.

## Industry partner worldwide

The EMKA group is divided into several business units which allow a clear focus on individual sectors and taylormade solutions for customers.

With its high level of in-house production, EMKA is in control of the entire production flow in every unit – from the concept to the finished product.
