

INGENIOUS LOCKING TECHNOLOGY

A man and a woman in business attire standing in a factory setting. The man is on the right, wearing a dark suit, a checkered shirt, and a blue tie. The woman is on the left, wearing a grey blazer. They are both smiling slightly. The background is a blurred industrial environment with blue overhead structures.

About EMKA

The EMKA GROUP is world market leader for locks, latches, hinges and seals used in switch and control cabinets.

For more than 40 years, the company has been active across all sectors in the fields of industry (switch and control cabinets, HVACR systems, mechanical engineering) and transport (railway and commercial vehicles, caravans, etc.) with conventional and electronic locking solutions.

The overall range comprises more than 30,000 catalogue and special products, which are developed, manufactured, refined and assembled at ten production sites in Germany, France, Great Britain, Spain, Bosnia-Herzegovina, Serbia, China and India.

In one of the two new plants in Bosnia, the company produces around 900 moulds for injection moulding and die casting every year - both for own production and for external customers.

With 2,100 employees EMKA serves over 36,000 customers in 55 countries worldwide. In 2019, the company achieved turnover of over 295 million euros.

EMKA: Ingenious Locking Technology.

Locking systems for switch and control cabinets

The modular range of EMKA products offers a unique choice of different types of locking systems for switch and control cabinets.

The high quality and product standards are guaranteed by an excellent manufacturing know-how and by the certified process control according to ISO 9001.

The company's own accredited test laboratory guarantees consistent quality assurance at the highest level.

Industry partner worldwide

The EMKA group is divided into several business units which allow a clear focus on individual sectors and tailor-made solutions for customers.

With its high level of in-house production, EMKA is in control of the entire production flow in every unit – from the concept to the finished product.

EMKA Production

The company's own EMKA Production division acts as a "partner to industry" on the market.

Customers from a wide range of industries thus have the opportunity to use EMKA's entire manufacturing and service spectrum for their products.

EMKA is an expert in stainless steel casting, zinc and aluminum die casting, injection moulding of high-performance plastics and extrusion of rubber and plastic profiles.

EMKA Production does not see itself as a contract manufacturer, but rather as a process partner. Our consulting services begin with feasibility studies and the joint development of moulds, tools as well as fixtures for the subsequent production of single components or assemblies for our customers.
